EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, page 1, line 5, after "reference" add --- now Patent No. 6,444,408 ---.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The amended claims removed "fused" but by doing so introduced an unconsidered subgenus of composition and element because applicants did not revert to previously considered claim language by removing "fused" alone. However, upon reviewing all rejections of record in all previous actions, the examiner finds that the sole removal of fused does not reintroduce any rejections of record. The broader genus examined for the original claims was found to fully encompass the now claimed genus. Thus, the claimed invention is found allowable removing all issues with respect to 35 USC 112, first paragraph. The new issues introduced with respect to an intermediate scope heretofore unconsidered have been now fully considered. The claimed invention is now found allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
